

DBR

DIAMOND BACK RACING

• Dual Systems Go •

As the level of racing excellence moves unrelentingly forward, the level of our best racing models have kept pace and even pushed the envelope. For 1993 we've taken Diamond Back racing bikes so far forward, they've earned a category of their own.

Introducing DBR- Diamond Back Racing. Tested and refined in the unforgiving arena of international racing, the DBR models, Axis Team Titanium and Dual Response, incorporate new materials, new engineering, and new thinking that reshape the ultimate capability of high performance bicycles.
