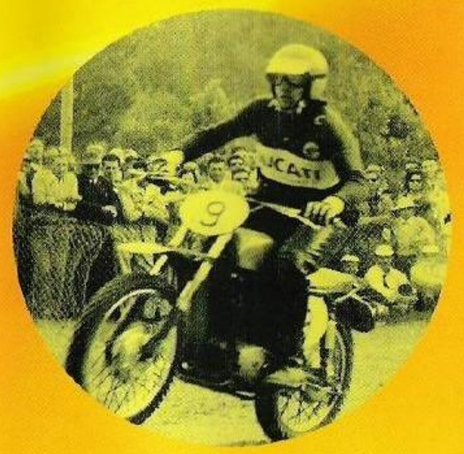
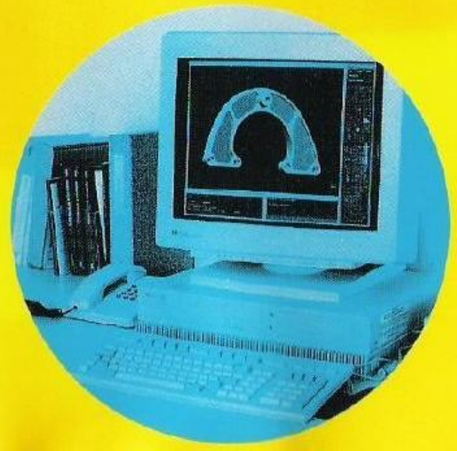
Marzocchi S.p.A. has been producing high performance moto suspension for nearly half a century.
It was back in 1949 when the two Marzocchi brothers decided to leave their jobs at Ducati to fulfill their very own suspension dreams. Since then, Marzocchi has claimed it's name as the premier suspension building company by capturing numerous World Motocross & Mountain Bike Championships, Paris-Dakar victories, GP Road Racing Championships, as well as World Trials Championship Victories. Marzocchi also supplies some of the most renowned motorcycle and automotive companies with their hydraulic demands.
Ferrari F-1, BMW, Ducati, Aprilia, KTM, Husquarna, Cagiva, Honda and even Harley-Davidson motorcycles all rely on Marzocchi suspension systems.

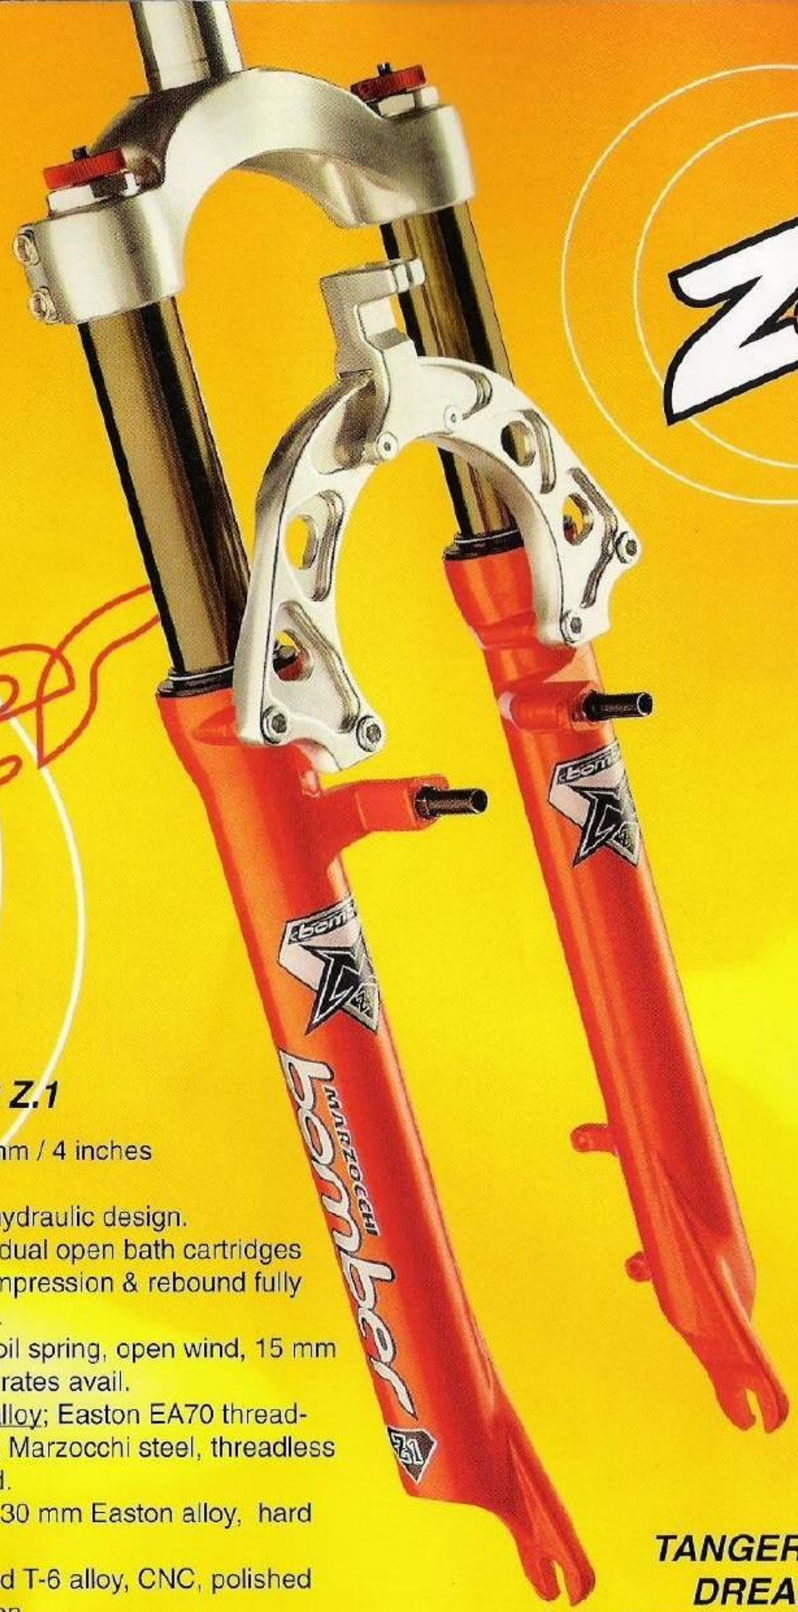
The radically new 1997 Bomber line descends directly from our extensive moto-building & racing experience. We've spent nearly two years in it's development, a few million dollars, and hundreds of prototypes.
We pulled all the stops on what mountain bike suspension forks used to be like and redefined what they will become.
We've melted high performance technology with unmatched reliability to supply today's rider with the performance he or she demands. Don't be satisfied with cheap hop-up kits and inferior designs.
Get on a Bomber and get one fork that will deliver buttery-smooth SSV damping, maximum rigidity, superior strength, and unprecedented reliability.
There's no other fork that even compares and we're years beyond the competition.
It's a Bomber and it's a revolution.





bomber

Z1



BOMBER Z.1

Travel: 100 mm / 4 inches
Function:
Coil & oil hydraulic design.
Dampers: dual open bath cartridges control compression & rebound fully adjustable.
Springs: coil spring, open wind, 15 mm preload, 3 rates avail.
Steer tube: alloy; Easton EA70 threadless. steel; Marzocchi steel, threadless & threaded.
Stanchions: 30 mm Easton alloy, hard anodized.
Crown: forged T-6 alloy, CNC, polished to perfection.
Arch: forged T-6 alloy, CNC, removable brake hanger.
Sliders: Marzocchi casted alloy.
Length: 473 mm /18.6 inches.

TANGERINE DREAM

Item	Steer tubes	Crown
01.403	1 1/8"	P=30
01.404	1 1/4"	P=33
